# Audience Testimonials

**“Fantastic opportunity to network, and learn about existing CX and service design practices in the digital sphere.”**

Ontario Health

**“Great event overall. Presentations and round table were very relevant.”**

Province NS

**“The speakers provided timely and relevant information regarding digital transformation in government. Things I can take back into my role in Government.”**

Government of Alberta

**“I found the session very valuable. Listening to the discussion from different perspectives was informative and helpful to understand Digital Government and the CX experience.”**

Government of Alberta

**“A great networking opportunity and really good presentations for some of the challenges and opportunities in this fast past industry.”**

Alberta Health Services

Corporation

## About Us

Public Sector Network connects government organizations across the globe.

Our mission is to give public sector professionals a single place to come together, share ideas, and get free, unlimited access to the latest information about critical topics that are transforming the government landscape.

Our government-only network helps members find relevant international content and case studies that are critical to your work and can help you save time, and money. For those who are looking to network at a deeper level, we hold insightful online and in-person events, ranging from conferences and exhibitions, to intimate training courses and forums across major cities around the world.

The Public Sector Network (PSN) is a certified B Corporation, a business that meets the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose.

The goal of the B Corps is to accelerate a global culture shift to redefine success in business and build a more inclusive and sustainable economy.

Public Sector Network events, like the Public Sector Innovation Show, limit waste where possible. Initiatives like using reusable dishware instead of plastic disposable options and limiting paper through use of our event app are only small examples of our commitment to sustainability.

## Become a Supplier

We understand that government needs to partner with private sector, but this can often be a crowded, noisy market.

Our network is designed for public sector professionals only as it maintains the credibility of our content for our government members.

In order to help our members connect with private sector, we have created Public Sector Network's Marketplace where solution and service providers can create free profiles showcasing their business. Our members can easily search for any requirement and connect directly with you.

If you want to get exposure to our ever-growing membership, then start your free page today.
